F5LME hybrid kitchen fitting for hot water heater

Modell-Linie: F5 | F5LME002
Taps | Manual taps

KWC-No.
2030061065

F5LME hybrid kitchen fitting DN 15 as pillar mixer with swivelling spout, can be locked in the centre position. Adjustable swivel ranges of 50°, 120° and 360°. To the connection via hoses in open undercounter boilers. Single lever mixer with mixer cartridge with ceramic disc technology and adjustable, turn-proof temperature stop. Alternative activation using hand reflection via an opto-electronic sensor for time-controlled water release with preset mixing water temperature. Mixer cartridge, solenoid valve and sensor with control electronics in all-metal housing, brushed stainless steel. With beam shaper. Projection 220 mm. Activated water hygiene flushing 24 hours after last activation, safety switch-

off for continuous reflection and saving of statistical data. With option for parametrisation and communication via optional, bidirectional remote control. Optionally for battery operation with battery compartment including 6 V lithium battery (CR-P2) per fitting for installation under the kitchen sink or for separate power supply via 6.75 V/12 V DC power supply unit or AQUA 3000 open system accessories.

Battery compartment including battery or power supply unit with extension cable must be ordered separately.
