F4LT-Med thermostatic single-lever wall-mounted mixer

Modell-Linie: F4 | F4LT1005

Taps | Manual taps

KWC-No.

Projection 200 mm

F4LT-Med thermostatic single lever mixer as DN 15 wall-mounted

mixer for wall mounting with lockable swivelling spout, for sanitary facilities in the healthcare and nursing sectors, with 148 mm lever. Thermostat-controlled mixer cartridge with expansion element, integrated

fail-safe against backflow, safety switch-off in case of cold-water failure, adjustable and turn-proof temperature stop, and ceramic

technology. Without additional backflow preventer for optimised

water hygiene. Lever cap with an ergonomic bracket design and

curvature in the front with basalt-grey coating, in line with two-

principle (tactile and visual). For connection to hot and cold water. Tap optimised for cleaning, scald-protected, safe-touch housing, all-metal construction, polished chromium-plated brass. Decoupled from

the tap housing, volume-reduced, smooth water flow from low-lead brass (lead proportion = 0.2%), and without nickel coating. With thermal

insulation components to reduce heat transfer from the tap housing

the cold-water line. Self-emptying spout with flow rate controller 9.0 l/min and laminar jet controller. With adjustable and lockable connections with strainers, fully covered by depth-adjustable screw rosettes. Projection 200 mm.
