F5 smart urinal unit for single ceramic urinals

NEW

F5 smart urinal unit for installation behind single urinals made of ceramic. Water path pre-assembled with inlet connector, hoses, locking and solenoid valve. Control unit in sealed plastic box for wireless communication with the F5 smart urinal sensor. Either for battery operation with 6 V lithium battery (CR-P2) per control unit or separate power supply via power supply unit 6.75 V/12 V DC.

Battery compartment including battery or power supply unit with extension cable must be ordered separately.

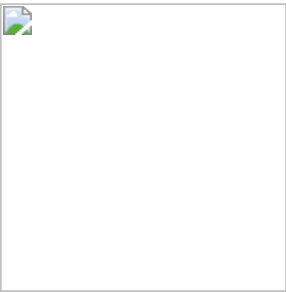

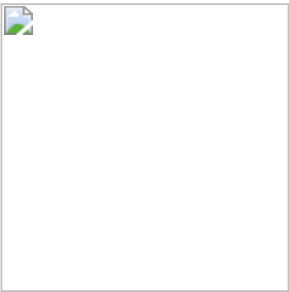

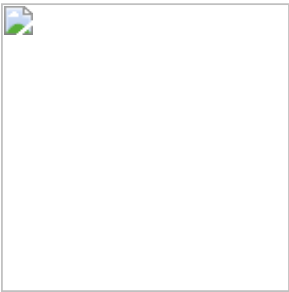

You can find an overview of suitable ceramic urinals in the product information on our website.
