

KWC F5

Smart urinal unit for single urinal made of stainless steel

Modell-Linie: F5 | ACEF3003 Flushing systems | Electronic urinal flushing systems

F5 smart urinal unit for single urinal made of stainless steel F5 smart urinal unit for installation behind a single urinal made of CMPX539 stainless steel. Water path pre-assembled with hose for water connection, locking and solenoid valve. Control unit in sealed plastic box for wireless communication with the F5 smart urinal sensor. Either for battery operation with 6 V lithium battery (CR-P2) Battery compartment including battery or power supply unit with extension cable must be ordered separately
